

In addition to the sizeable EPA SARA Title III chemical database included with the SARA module, you can build an extensive chemical library within MIRSTM with the CLE (Chemical List Extension) module. This large chemical library provides a convenient cross check of the your company's materials against various regulated chemical lists.

CLE (Chemical List Extension)

add-on module

SARA, FORM R or AIR module is required for this add-on module

The CLE add-on supports more than 110 agency lists, a total of over 195,000 chemicals and 19,000 Form R and HAP category chemicals.

- Chemical lists are reviewed and verified each year, by A V Systems' regulatory staff. Chemicals additions are incorporated into the CLE and any delisted chemicals are deleted to keep your organization compliant with the latest reporting requirements.
- Saves data entry time for the chemicals in the database.
- Provides a cross-check of the facility's chemical components against the agency list of chemicals, so that you know which chemicals you have to report, and under which regulations.

The CLE includes the following lists:

- SARA Title III Section 302 Extremely Hazardous Substances (also included in SARA)
- SARA Title III Section 304 CERCLA chemicals (also included in SARA module)
- SARA Title III Section 313 Toxic Chemicals (includes 19,000 chemicals assigned to Form R categories)
- Clean Air Act Hazardous Air Pollutants (HAPs)
- Clean Air Act Ozone-Depleting Substances (ODCs)
- EPA Clean Air Act Section 111 New Stationary Sources Pollutant List
- EPA Clean Air Act Section 112(r) chemicals
- EPA AFS Air Pollutants
- EPA High Production Volume (HPV) Challenge Program Chemical List
- EPA List of Priority Pollutants
- EPA Toxicity Characteristic Constituents/TCLP
- EPA Clean Water Act Section 111 List of Hazardous Substances

- NPDES Storm Water Discharge Permit Chemicals
- NPDR National Primary Drinking Water Regulations
- NSDWR National Secondary Drinking Water Regulations
- OSHA Hazardous Chemicals
- OSHA Subpart Z tables 1, 2, & 3
- Chemical Weapons Convention Regulations List
- DOT Inhalation Hazard Chemicals
- FIFRA Active Ingredients of Registered Pesticides
- SARA 110 Superfund Priority Contaminant List
- TSCA Toxic Substances Control Act (15 lists)
- Canadian National Pollutant Release Inventory (NPRI)
- Canadian Hazardous Products Act Ingredient Disclosure List
- European High & Low Production Volume Lists
- European REACH lists (12 lists)
- National Inventory lists for Australia, Canada, China, Japan, New Zealand, Philippines, South Korea
- United Nations lists for Greenhouse Gases, Rotterdam Convention Hazardous Chemicals and Pesticides, Stockholm Convention Persistent Organic Pollutants
- California Proposition 65 Chemicals and 6 other CA lists
- Michigan DEQ Part 5 Polluting Materials
- New Jersey Environmental Hazardous Substances List
- North Carolina Toxic Air Pollutants
- Pennsylvania Hazardous Substances List
- South Carolina Toxic Air Pollutants
- Wisconsin Reportable Air Contaminants
- Kyoto, Federal, and State greenhouse gas lists.
- 1 user-defined VOC list
- 10 user-defined local lists (included in SARA module)
