

The FORM R module provides step-by-step guidance to chemicals reportable under SARA Title III, Section 313 (Toxic Release Inventory), and prepares Form R or Form A reports for direct submission to the EPA.

## FORM R

stand-alone module

### SARA Title III Section 313 compliance

The FORM R module guides you through the Form R / Form A process and avoids over- and under- reporting.

The program features step-by-step guidance to lead you through chemical identification, usage, release determination, exceptions, and exemptions.

Features such as sequential menu steps, progression charts and a Wizard make it easy to complete SARA 313 reports quickly and accurately.

### USER-FRIENDLY

Features selection tables throughout, with type-of-use codes and release calculation equations to greatly simplify Section 313 compliance.

**Large chemical database** includes all listed Section 313 toxic chemicals, including PBTs and Dioxins, and 16,000 category chemicals that are not individually listed by the EPA. Also includes detailed chemical data: CAS, EINECS, and RTECS numbers, regulatory information, hazard classes and more.

**Chemical-category locator** function helps you find and combine the Section 313 category chemicals.

**Special-condition qualifier** allows you to include or exempt certain reportable chemicals.

**Mass balance feature** accounts for all chemical usage.

**Automatically transfer** Air Release from the AIR module. Transfer NPDES discharge totals and Off-Site Transfers from the WASTE module.

Produces **Form R, Form A and Form R Schedule 1** reports and Magnetic Media Submission files in EPA format.

Generate **multi-year comparisons** and multi-facility Responsible Care Report.

## INVENTORY

add-on module

SARA, FORM R, or MSDS is required for this add-on module

**“Real time” chemical inventory tracking by location or container:** tracks transactions by location for physical inventory, purchase, usage and inventory transfers; alternative version for tracking amount by container.

### FEATURES

**Inventory calculations:** calculates usage, average and maximum quantities for any specified period of time.

**Year-to-date reports:** generates year-to-date inventory level reports and projects reportable chemicals based on annualized amounts.

**Year-end reporting:** generates material summaries and integrates with other MIRS<sup>TM</sup> modules for year-end Tier, Form R and other compliance reporting, with automatic inventory unit conversion to “pounds”.

**MIRS<sup>TM</sup> FORM R** module creates an audit trail to document your compliance effort through each step: usage calculation worksheets, threshold summary and reportable chemicals listing.

### RELIABLE

**MIRS<sup>TM</sup>** is the *only* system which produces both printed and magnetic media Form Rs **approved by the EPA** before the deadline every year since 1988.

### Other Modules available for use with MIRS<sup>TM</sup>

Stand-alone:

- SARA Module
- MSDS Module
- FORM R Module
- AIR Module
- NPDES Module
- WASTE Module
- PERMIT Module

Add-on:

- CHEMICAL LIST EXTENSION (CLE) Module
- INVENTORY (location) Module
- INVENTORY (container) Module
- MSDS HAZCOM Module
- MSDS NETVIEW Module
- MSDS DISTRIBUTION Module
- LOCAL Module
- RCRA TRAINING Module
- TASK MASTER Module
- CORPORATE-MIRS

Popular packages:

- SARA Title III Package
- Worksafe Package
- Releases Package

**LET MIRS<sup>TM</sup> TAKE THE HAZARD OUT OF YOUR EH&S COMPLIANCE!**
